HF 472 – School District Sharing Incentives (LSB 1830HV)

Analyst: Shawn Snyder (Phone: (515) 281-7799) (shawn.snyder@legis.iowa.gov)

Fiscal Note Version – New

Description

House File 472 creates new supplementary weighting provisions for shared optional functions. The Bill maintains and expands the current list of shared operational functions that are eligible for the supplementary weighting. School districts and area education agencies may receive additional funding for specified sharing provisions with another political subdivision with approval from the Department of Education. The supplementary weighting will be equivalent to 0.02 per student with a per shared function provision minimum amount of 10.0 and a maximum amount of 40.0 full-time equivalent students.

The new shared operational functions provision begins in FY 2015 and expires at the end of FY 2020. If approved, school districts will be eligible to receive supplementary weighting for each shared operational function for a maximum of five years (or until the end of FY 2020).

Background

Currently, school districts can receive supplementary weighting for shared operational functions including areas of superintendent management, business management, human resources, transportation, or operation and maintenance for at least 20.0% of the school year. The current supplementary weighting provision for shared operational functions specified a 20.0% annual phase-out of the supplementary weighting amount for each shared function (HF 472 does not include that provision). The additional sharing provision for supplementary weighting began in FY 2009 and is set to sunset at the end of FY 2014. The following table provides the supplementary weighting amounts and funding levels for the current shared operation function provision.

Legislative Services Agency: Supplementary Weighting and Funding Amounts								
District Shared Operational Functions								
	Weighting	Percentage Change in Weighting	State Aid Portion	Property Tax Portion	Total Funding	Percentage Change in Total Funding	Number of Districts	Percentage of Districts

*Preliminary - estimates based on a 0.0% allowable growth rate for FY 2014.

Assumptions

Assumptions for the fiscal impact include:

- Allowable growth rates of 0.0% for all years. Any allowable growth rates above 0.0% will increase the overall cost of the proposal.

- Assumes that all districts that received shared operational function supplementary weighting between FY 2009 and FY 2014 will receive approval under the new provision for at least one shared operation function provision.
- Estimates for FY 2015 are based on the districts that had shared operational function supplementary weighting in FY 2014, with the weighting levels restored at the maximum values for FY 2015.
- Area education agencies (AEAs) are eligible to receive supplementary weighting as well; however, the Legislative Services Agency (LSA) does not provide an estimate for this provision.
- There is no phase-out for this supplementary weighting provision. The LSA estimate assumes that districts that participate in this provision will only receive supplementary weighting for a single function. However, districts are eligible to receive supplementary weighting for any of the functions noted in this Bill.

Fiscal Impact

The following table provides the estimated fiscal impact of HF 472 for FY 2015 and FY 2016. The supplementary weighting provision for shared operational functions is estimated to total 2,074.3 and generate approximately \$12.4 million (including \$10.9 million in State aid) above the current law school aid estimates for FY 2015. In FY 2016, enactment of HF 472 will increase the estimated supplementary weighting total by 2,636.1 and generate an additional \$15.8 million (\$13.8 million in State aid) above the current law estimates. The fiscal impact in FY 2017 through FY 2020 is estimated to be at least at the level of the FY 2016 amounts, and may exceed those amounts if additional shared operational function provisions are used by school districts and AEAs.

Shared Operational Functions Supplementary Weighting Impact				
	Supplementary Weighting Total	Estimated Total	State Aid Portion	Property Tax Portion
FY 2015	2,074.3	\$ 12,447,946	\$ 10,892,212	\$ 1,555,734
FY 2016	2,636.1	15,819,116	13,842,056	1,977,060
Estimates will be at least the level of the FY 2016 amounts for FY 2017 - FY 2020.

HF 352 – School Instructional Time, Days to Hours (LSB 1066HV)
Analyst: Shawn Snyder (Phone: (515) 281-7799) (shawn.snyder@legis.iowa.gov)
Fiscal Note Version – New

Description

House File 352 replaces the requirement that school provide at least 180 instructional days in a school year with a provision that requires at least 1,080 instructional hours. Additionally, this Bill specifies that lunch period time and parent-teacher conference time not be included as instructional time.

Background

Based on data from the Department of Education reflecting the 2012-2013 school year, there are 314 school districts (90.2%), that on average, meet the 1,080 instructional hour requirements. The remaining 34 districts (9.8%), have average instructional hours that are less than the 1,080 hour requirement specified in this Bill. The following table provides a list of districts that have average instructional hours less than 1,080 hours. Additionally, **Attachment A** provides a listing by district of average instructional hours, average instructional hours with parent-teacher conference time included, and the average teacher contract days.

Fremont-Mills	1,046	35	191	Ogden	1,077	3	191

Assumptions

Data analyzed includes information from the Department of Education regarding the number of minutes for instruction, lunch, transition, and teacher compensation minutes by school building. The Department of Education has indicated that the teacher compensation minutes reflect the number of minutes for parent-teacher conferences.

The average instruction hours by school district is based on the average number of instructional and transition minutes divided by 60. The calculation includes schools buildings with building levels identified as high school) junior high school, middle school, or elementary school.

Fiscal Impact

The estimated fiscal impact of this Bill is unknown. For districts that currently exceed or are near the 1,080 average instructional hours, there are no additional costs anticipated. For districts that have average instructional hours significantly less than 1,080, there may be additional costs to conform to the minimum requirement, but that amount is currently unknown.

Notes:

Average instruction hours are based on the instruction hours for elementary, middle, junior high, and high school building levels within each school district.

Instruction hours are based on total minutes for instruction and transition divided by 60 minutes.

Instruction hours with parent-teacher conference time includes teacher compensation minutes that are the number of minutes teachers receive as time off due to an extended work day during parent-teacher conferences.
